

Certificate Fees for ROV Personnel

The Diver Certification Board of Canada is a federally registered, not-for-profit body which is partially funded by stakeholder contributions and partially by the fees received for certificates. The amount of the fee varies according to the certificate. The fee for a given certificate is set after consideration of such criteria as:

- The seriousness of the consequences of issuing a certificate to an unqualified candidate.
- The time taken to verify information submitted by a candidate.
- The earning power of the certificate.
- The difficulty in obtaining the certificate in terms of training and experience.
- The fees charged over five years by other certifying bodies and professional associations (in 2003) (e.g. RN's \$1,581.25; Licensed Practical Nurses \$500.00; Professional Engineers (in NS) \$1,219.00; Lawyers (in NS) \$5,100.00; Engineering Technologists \$695.00; Realtors \$1,375.00; PADI Instructors \$845.25)
- All fees are in Canadian dollars.
- All fees were increased by 10% on August 1, 2010; the first increase in seven years.

Pilot/Technician Level 2	\$220
Pilot/Technician Level 1	\$275
Senior Pilot/Technician	\$330
Pilot/Technician Supervisor	\$440

Notes:

1. Fees for initial certification after training, valid for two years only, will be reduced by 50% from those shown above.
2. Please make cheques payable to the Diver Certification Board of Canada
3. Click the PayPal Logo at the bottom of the DCBC home page and use the button at the bottom of the list to pay your fees online with your credit card. **Please note that fees are increased by the PayPal fee of 3%**
